EDUCATION

M.A. in Clinical Psychology *2023–2025*
Seoul National University, Department of Psychology *Seoul, Korea*
· Overall GPA: 4.06/4.3

B.A. in Psychology; B.A. in Social Welfare, summa cum laude *2019–2023*
Seoul National University, Department of Psychology and Social Welfare *Seoul, Korea*
· Overall GPA: 4.06/4.3

RESEARCH INTERESTS

Computational psychiatry; addiction and substance use; naturalistic decision-making; ecological momentary assessment; precision interventions

RESEARCH EXPERIENCE

Computational Clinical Science Laboratory *Sep 2022–Present*
Seoul National University
· Advisor: Prof. Woo-Young Ahn

Research Assistant (Full-Time) *Sep 2025–Present*

- Lead the study design and protocol development of a year-long intensive longitudinal fMRI study involving repeated neuroimaging, behavioral, and clinical assessments.
- Lead the experimental design and implementation of an ongoing longitudinal AUD study integrating behavioral, fMRI, and EMA assessments, overseeing protocol development, task implementation, piloting, and data quality.
- Implement model-based fMRI analyses linking trial-level computational decision variables to neural responses.

Graduate Research Assistant *Sep 2023–Aug 2025*

- Conceived and built a custom 3D multi-armed bandit paradigm in Minecraft from the ground up, implementing the experimental logic through a custom game plugin and leading the study end-to-end from participant recruitment through high-frequency behavioral data collection, reproducible processing, and computational analysis.
- Developed and led the analytic framework for a 28-day longitudinal study of alcohol use disorder, integrating computational markers, daily EMA, and smartphone-derived behavioral measures to distinguish within- and between-person predictors of nighttime drinking.

Undergraduate Research Assistant *Sep 2022–Aug 2023*

- Conducted behavioral and fMRI experiments across multiple lab studies, independently managing participant sessions, protocol execution, and data-quality procedures.

Undergraduate Research Support Program *May 2022–Jan 2023*
Department of Psychology, Seoul National University
· Advisor: Prof. Jiook Cha

Project Lead & Undergraduate Researcher

- Secured $3,870 in competitive research funding as the lead applicant and designed and led a 5-week VR-assisted group CBT study for social anxiety, from intervention development and participant recruitment through data collection and analysis.

PUBLICATIONS AND MANUSCRIPTS

Lee, H.†, Kwon, M.†, Lee, J., Kwon, M., Song, S., Lee, D., ... Ahn, W.-Y. (2026). *Daily fluctuations in delay discounting and smartphone-based multimodal measures track nighttime drinking in alcohol use disorder: A 28-day monitoring study*. Revise and resubmit (R&R), *Addiction.* PsyArXiv preprint.

Lee, D., Lee, J., **Lee, H.,** Kwon, M., Song, S., Yoon, J., Jung, Y.-C., Ahn, W.-Y., & Choi, J.-S. (in press). *Forecasting next-day alcohol craving in problematic drinkers with multimodal data and a tiny recurrent neural network: Prospective longitudinal study. Journal of Medical Internet Research*.

Kwon, M., Song, S., **Lee, H.**, Kwon, M., Choi, J.-S., Jung, Y.-C., Rosenberg, M. D., & Ahn, W.-Y. (2026). *Drinking motives synchronize behavioral and neural craving responses to alcohol-drinking videos.* Manuscript under review at *Translational Psychiatry*. bioRxiv preprint.

Lee, H.†, Jeon, J.†, Lee, J., Lee, Y.-S., Shim, W.-M., & Ahn, W.-Y. (2026). *Naturalistic foraging reveals latent signatures of value-guided exploration during nicotine abstinence*. Manuscript in preparation.

† Equal contribution.

CONFERENCE PRESENTATIONS

Lee, H., Kwon, M., Lee, J.-H., Kwon, M., Song, S., Lee, D., Choi, J.-S., Jung, Y.-C., & Ahn, W.-Y. (2026). Computational Markers and Digital Phenotypes Jointly Characterize Daily Drinking, *Poster presented at the Computational Psychiatry Conference, New Haven, CT.*

Lee, H., Jeon, J., Lee, J., Shim, W. M., & Ahn, W.-Y. (2025). Naturalistic Decision-Making Reveals Exploit Bias and Cost Insensitivity in Abstinent Smokers*, Poster presented at Neuroscience 2025, Society for Neuroscience Annual Meeting, San Diego, CA.*

Lee, H., Kim, D., & Cha, J. (2023). Development of Metaverse Social Anxiety Reduction Program for Social Anxiety and Verification of Effectiveness, *Poster presented at the 10th World Congress of Cognitive and Behavioral Therapies, Seoul, Korea.*

TEACHING EXPERIENCE

Seminar in Experimental Psychology: Computational Modeling *Mar 2025–Jun 2025*
Teaching Assistant

- Graded coding assignments and supported students in computational and Bayesian modeling, including code troubleshooting.

AWARDS & HONORS

President's Award, Undergraduate Research Support Program, First Place *2023*
Seoul National University

Academic Excellence and Merit-Based Scholarships *2019–2023*
Seoul National University

- One full-tuition and multiple partial-tuition scholarships (~$4,880)

SKILLS

Programming and Statistical Tools: Python, R, Stan, MATLAB, SPM
