EDUCATION

M.A. in Clinical Psychology 2023–2025
Seoul National University, Department of Psychology Seoul, Korea
· Overall GPA: 4.06/4.3

B.A. in Psychology, double major in Social Welfare, summa cum laude 2019–2023
Seoul National University, Department of Psychology and Social Welfare Seoul, Korea
· Overall GPA: 4.06/4.3

RESEARCH EXPERIENCE

Computational Clinical Science Laboratory Sep 2022–Present
Seoul National University
· Advisor: Prof. Woo-Young Ahn

Post-Master Research Assistant Sep 2025–Present
Graduate Research Assistant Sep 2023–Aug 2025
Undergraduate Research Assistant Sep 2022–Aug 2023

- Coordinate and execute human research experiments, data quality control, analysis planning, documentation, and manuscript preparation for first-author and co-first-author research outputs.
- Conduct model-based fMRI analyses linking computational decision variables to neural responses.
- Designed and implemented behavioral tasks for Minecraft-based 3D naturalistic decision-making experiments.
- Built reproducible pipelines for behavioral task data, including choice behavior, reward trajectories, movement trajectories, and view dynamics.
- Adapted and evaluated cost-sensitive reinforcement learning models for a Minecraft-based naturalistic decision-making task to examine how movement costs shape exploration and exploitation.
- Processed and analyzed smartphone-based monitoring data, computational markers, and clinical variables to examine daily fluctuations in alcohol-related behavior.

Undergraduate Research Support Program May 2022–Jan 2023
Seoul National University
· Advisor: Prof. Jiook Cha

Research Assistant

- Designed and assisted in administering a 5-week VR-assisted group CBT program for college students with social anxiety, incorporating virtual-environment exposure exercises, clinical questionnaires, and wearable-derived heart-rate and heart-rate-variability measures.
- Recruited participants, administered the VR-based social anxiety reduction experiment, analyzed behavioral data, and prepared results for poster presentation; received University President's Award.

PUBLICATIONS AND MANUSCRIPTS

Lee, H.†, Kwon, M.†, Lee, J.-H., Kwon, M., Song, S., Lee, D., Choi, J.-S., Jung, Y.-C., & Ahn, W.-Y. (2026). Daily fluctuations in delay discounting and smartphone-based multimodal measures track nighttime drinking in alcohol use disorder: A 28-day monitoring study. *Manuscript submitted for publication*.

† Equal contribution.

PRESENTATIONS

Lee, H., Kwon, M., Lee, J.-H., Kwon, M., Song, S., Lee, D., Choi, J.-S., Jung, Y.-C., & Ahn, W.-Y. (2026). Computational Markers and Digital Phenotypes Jointly Characterize Daily Drinking, *Poster presented at the Computational Psychiatry Conference, New Haven*.

Lee, H., Jeon, J., Lee, J., Shim, W. M., & Ahn, W.-Y. (2025). Naturalistic Decision-Making Reveals Exploit Bias and Cost Insensitivity in Abstinent Smokers, *Poster presented at the Society for Neuroscience, San Diego*.

Lee, H., Kim, D., & Cha, J. (2023). Development of Metaverse Social Anxiety Reduction Program for Social Anxiety and Verification of Effectiveness, *Poster presented at the World Congress of Cognitive and Behavioral Therapies, Seoul*.

TEACHING EXPERIENCE

Seminar in Experimental Psychology: Computational Modeling

Mar 2025–Jun 2025

Teaching Assistant

- Reviewed and graded coding assignments and provided feedback on students' computational modeling work.
- Assisted students with troubleshooting code and understanding core concepts in computational modeling.

Additional Teaching Assistantships

Sep 2023–Dec 2024

Counseling Psychology, Affective Psychology, Abnormal Psychology

AWARDS & HONORS

President's Award, Undergraduate Research Support Program, First Place

2023

Seoul National University

Academic Excellence and Merit-Based Scholarships

2019–2023

Seoul National University

One full-tuition scholarship and multiple partial-tuition scholarships for academic excellence

SKILLS

Programming and Statistical Tools: Python, R, Stan, MATLAB, SPM

Languages: Korean, native; English, professional working proficiency
